4. At the next meeting of the working group each country will give a brief presentation on the state of research in that country.
5. During the next meeting we will select 4 types of papers, which will be presented for comment on an international symposium.
6. This symposium might be the Shot -congress in October 2001.
7. Each member considers, whether there are other people, who should be asked to participate in our activities.
8. Next meeting we will make a more complete action-plan
